

FOR THE CONSTITUTION'S SAKE: ELECT JAKE

CONSTITUTIONALIST REPUBLICAN JAKE BAIR FOR HOUSE DISTRICT 10

Oklahoma State engineering professor Jake Bair is on a mission to restore principle—small-government constitutionalism—to Oklahoma's government. Today, state government is massive and intrusive, far beyond what our founders imagined. Appropriations stand at over twelve billion, with waste,

corruption, and policy disasters ruling the day. Social services are woke and ineffective. State agencies such as Mental Health are in a free fall. Punitive property taxes punish the people.

Meanwhile, career politicians look the other way.

Compromised by lobbyists they lack the courage to confront the system. Jake Bair is different. He won't take their money. He has knowledge, independence, and conviction. He will fight for the people and our values.

BAIR

DOES NOT TAKE LOBBYIST MONEY

RETURN THE FOCUS TO THE BAIR NECESSITIES IN EDUCATION

As a Mechanical Engineering professor at OSU, Jake Bair has spent his career preparing the next generation with real-world knowledge and skills. He has the credibility to push back against the woke ideological fads that dilute our classrooms and numb the minds of our students. He will champion a serious focus on STEM—science, technology, engineering, and math.

PROTECTING OKLAHOMA VALUES WITH BAIR STRENGTH

Jake will stand strong against illegal immigration, defend the unborn, and fight to protect free speech, property rights, and the Second Amendment. He believes in restoring patient rights and making America healthy again. Jake will also lead on dramatic tax reform, with a **special emphasis on rolling back property taxes** and protecting Oklahoma farmland from chemical contamination from the government-subsidized green energy gift.

BAIRING DOWN ON BIG SPENDING

To shrink state government, we must start by replacing big-spending long-term incumbents. Seven-year incumbent Judd Strom voted for the massive spending bills that have sent Oklahoma's budget soaring. He even voted for HB 4455, a staggering \$698 million to Panasonic corporation to build a green technology factory in Pryor. Worse, its contents were made public at 2:28

PM in the afternoon and The House gave final approval the following morning at 11:43 AM. This is legalized corruption. Jake knows that House District 10 is a conservative district and deserves to have a representative who reflects their values. He will return conservative governance to the office of state representative.

LOBBYIST CASH CAN'T BUY BAIR

Lobbyist money is the poison that turns so-called conservatives into big-government spenders. That's why too many politicians talk tough before the election but abandon our values after it. Jake Bair is different. **He will never take a dime of lobbyist money—no matter the amount.** That means, if elected, he will be walking away from thousands of dollars, but Jake knows integrity isn't for sale. He'll stand with the people, not the lobbyists.

MEET JAKE BAIR

Jake Bair lives in Skiatook with his wife, Rachel, and their five children—Peyton (13), Madelyn (11), Layla (8), Connor (7), and Henry (2). He publishes the *Wisdom in the Best Books and Films* podcast and substack, holds a Ph.D. in Materials Science and Engineering, teaches Mechanical Engineering at OSU, and brings real-world experience—not politics—to the race for state representative.
